MATIN GATHANI

+44 7351047450 mg3246@imperial.ac.uk /in/matin-gathani/

EDUCATION

Imperial Business School **London, United Kingdom| Sep 2026 – Jan 2028**
MSc Artificial Intelligence
Relevant Modules - Advanced Machine Learning, Generative AI and Large Language Models, Causal Modelling for Business Analytics, Financial Analytics

Arizona State University **Arizona, United States| Aug 2022 – May 2026**
B.S. Computer Science (GPA: 3.74/4.0)
Dean's List – Year 2022, 2024, 2025, 2026

PROFESSIONAL EXPERIENCE

Cloudflare **Remote | Mar 2026 – Present**
Open-Source Contributor
- Contributed 25+ merged bug fixes to Cloudflare's open-source developer toolkit (Wrangler CLI, Miniflare, Vite plugin), improving the reliability of tools used across Cloudflare's developer ecosystem
- Fixed a critical crash in Cloudflare Workflows that occurred when processing large data outputs, tracing the root cause to a storage limitation and shipping a fix that kept workflows from failing
- Eliminated two command-line bugs that broke developers' automation scripts, a stray success message polluting output data, and corrupted text appearing in terminal autocomplete
- Resolved several recurring crashes in the developer CLI (file-handling errors, broken error messages, silent failures) and fixed unreliable automated tests on Windows, improving overall tool stability

Arizona State University **Tempe, AZ, USA | Jan 2025 – Dec 2025**
Software Engineering Specialist
- Designed an AI-matching platform that scored and ranked student compatibility to pair students with their best capstone project, currently hosting 500+ students and placing 5th out of 150 projects at ASU's Capstone showcase.
- Developed 8+ backend API features with structured error handling, reducing manual data-entry failures and improving overall system reliability under concurrent load
- Built Python-driven data pipelines for structured data processing and Excel catalogue generation, cutting data-prep turnaround from hours to minutes.

Arizona State University **Tempe, AZ, USA | Aug 2024 – May 2026**
Engineering Tutor
- Supported 180+ students in Java, C++, and Assembly, resolving 1,000+ coding issues across 300+ tutoring sessions
- Improved exam scores by 25% and raised test coverage by 20% by introducing structured testing practices for student projects

ACHIEVEMENTS

Family Stainless Steel Manufacturing Business **Ahmedabad, India |May 2026 – Aug 2026**
- Conduct market research and export buyer analysis, identifying target buyers across Germany, UAE, Singapore, and the US using trade data and competitive benchmarking. (Entrepreneurial Experience)

CNN Cancer Detection Pipeline (Open Source) **Ahmedabad, India | Feb 2026**
- Built and open-sourced a CNN pipeline for cancer detection from histopathology images (PatchCamelyon dataset), achieving 91% AUC-ROC and reporting sensitivity, specificity, and accuracy rather than accuracy alone; designed for reproducibility and extension by other researchers (Independent Project)

ADDITIONAL SKILLS

Technical Skills
IBM Data Science Professional Certificate – Coursera (2026–Present), Mathematics for Machine Learning Specialisation – Imperial College London via Coursera (2026),
C++ - Advanced, Python – Advanced, SQL – Advanced, Power BI – Advanced, Excel – Advanced, JavaScript/TypeScript – Intermediate, Java – Intermediate, Tableau – Advanced
Docker – Intermediate, GitHub Actions CI/CD – Intermediate, PostgreSQL – Intermediate, MySQL – Intermediate, AWS (EC2, S3, Lambda) – Basic

Languages
Gujarati (native), Hindi (native), English (fluent)

EXTRA-CURRICULAR & INTERESTS

- Volunteered at Arizona State University's graduation ceremony (May 2025), managing guest check-in
